- JAVA

Summery:

Dedicated third-year Computer Engineering student with a strong foundation in software development and problem-solving. Proficient in programming languages such as Java, C++, and Python, with hands-on experience in project-based environments. Eager to apply technical skills and contribute to innovative projects in a dynamic team setting.

Educational Qualification

Computer Engineering

Saraswati College of Engineering, Mumbai University **Expected Graduation**: Pursuing | **Percentage**: 71.64%

H.S.C

Vidya Mandir Jr College, Islampur | Year: 2022 | Percentage: 69.72%

S.S.C.

St. Joseph High School, Kalamboli | Year: 2020 | Percentage: 75.63%

PROJECTS

Complaint Management System

- Developed a web-based application to streamline customer complaints and feedback processing.
- Implemented features for tracking, managing, and analyzing complaints effectively.
- Enhanced user experience through intuitive design and efficient data handling.

Movie Ticket Booking System

- Created a digital platform for users to browse and book movie tickets seamlessly.
- Integrated payment gateway and user authentication for secure transactions.
- Focused on responsive design for accessibility across devices.

Frontend Templates

- Developed a series of user-friendly frontend templates for web applications.
- Emphasized responsive design principles to enhance user engagement.
- Utilized HTML, CSS, and JavaScript to create visually appealing and functional templates.

Cultural Heritage (SANSKRITI)

- Designed an interactive platform to promote and preserve cultural heritage.
- Integrated multimedia content to engage users and educate them about cultural significance.
- Focused on user-centric design to encourage exploration and learning.

INTERNSHIPS

Prodigy Infotech

- Developed and maintained web applications, improving user interface and experience through responsive design.
- Collaborated with cross-functional teams to gather requirements and implement features effectively.
- Enhanced coding skills in languages such as HTML, CSS, and JavaScript, contributing to project success.

- Octanet Tech Services

- Assisted in creating and optimizing web solutions, focusing on performance and functionality.
- Engaged in debugging and testing processes to ensure high-quality deliverables.
- Gained valuable experience in teamwork and agile methodologies while working on diverse projects. Winner of zonal round

CERTIFICATION

Data Analysis Certification

- Accenture | Completed
- Developed skills in data manipulation, visualization, and interpretation using tools like Excel and Python.

AWS APAC Solutions Architecture Virtual Experience Program - December 2024

- Designed a scalable hosting architecture using Elastic Beanstalk to address client growth and performance
- Explained the architecture and cost structure in simple terms for client understanding.

Goldman Sachs Software Engineering Virtual Experience Program – December 2024

- Completed a governance analyst simulation focused on IT security assessment.
- Identified outdated password hashing algorithms by cracking passwords with Hashcat.
- Security improvements, including stronger hashing algorithms and longer password policies.
